## THE ROAR FOUNDATION MISSION STATEMENT

*The Roar Foundation supports The Shambala Preserve and shares its mission:  
To educate the public about exotic animals and to advocate for legislation to protect them.  
To provide sanctuary for exotic animals  
who have suffered from gross mistreatment and neglect  
so they can regain their physical and mental health and live out their lives in dignity.*

## THE ROAR FOUNDATION SHAMBALA PRESERVE

The Roar Foundation, which I founded as a 501(c)(3) non-profit organization in 1983, exists solely to support The Shambala Preserve. Our mission is to educate the public about the dangers of private ownership of exotic animals. Huge numbers of exotic dangerous animals are bred and sold in the United States for illegal purposes. Private ownership presents a grave danger to the public and is cruel and unfair to these animals. More stringent legislation is needed to prohibit breeding and selling. We are actively involved in legislating this on federal and state levels.

Prior to 1983 I had been rescuing the exotic felines since 1972. Up to the present, The Shambala Preserve has given sanctuary to over 235 exotic felines - lion, tiger, cougar, black and spotted leopard, serval, bobcat, Asian leopard cat, snow leopard, cheetah, lynx, tigon,

liger and African elephant. All have come to the Preserve after confiscation by authorities, such as California Fish and Game, U.S. Department of Agriculture, SPCA and Humane Societies. They are from roadside zoos and private citizens who realize they have purchased an animal they can no longer handle.

The exotic cat trade is a huge business. According to U.S. Fish and Wildlife it is on a par with illegal drugs. Once an animal is brought to Shambala, it remains here for the remainder of its life. As a true sanctuary, we do not buy, breed, sell, trade, or subject them to commercial use. Our only purpose is to allow these magnificent animals to live out their lives with care, understanding and dignity. Each has the best human, nutritional, medical, emotional and mental care possible.

There are many ways you can support The Roar Foundation: become a Member of the Roar Foundation, Adopt a Wild One, provide an item from the Shambala Wish List; attend a Safari Tour: visit The Trading Post, become a volunteer, attend one of our hugely popular and unique Sunset Safaris, and for a truly memorable experience, spend an entire night in one of Shambala's authentic African Tents! All of these help to further Shambala's educational efforts and support our mission. One special weekend a month, we hold the Safaris where Shambala opens the gates to the public for a small admission fee (by reservation only). All guests must be 18-yrs or older. Please come visit us and support our beautiful Wild Ones.

*Shambala is a Sanskrit word that means: "A Meeting Place of Peace and Harmony for all Beings, Animal and Human."*

Tippi Hedren

President The Roar Foundation  
The Shambala Preserve

Cyrus, Xhosa and Zoe

Shambala is home to over 40 big cats: lions, tigers, cougars, black and spotted leopards, servals, bobcats, and Asian leopard cats, who live out their lives at Shambala. All have come to the Preserve after confiscation by authorities such as California Fish and Game, the United States Department of Agriculture, the ASCPA, and various Humane Societies. They are from roadside zoos and private citizens who realize that they have purchased an animal that they can no longer handle. The exotic cat trade is a huge business, just under illegal drugs, according to U.S. Fish and Wildlife.
